NEW YORK, June 25 .- If proof was wanted that the New York market is under skillful manipulation, it was furnished by the surprise which showed plainly upon the faces of the bear crowd at the opening. When it had been expected that it would be easy to make a successful attack and force down prices, stock dope to that effect having been sent out during the night and telegraphed to the ends of the country this morning, all of yesterday's leaders opened from ¼ to a full point above last night's closing, and started firm and strong. St. Paul showed a gain of l¼, Union Pacific was up ¾ of a point and Brooklyn Rapid Transit showed a like gain on the strength of the report that the matter of fares to Coney Island would be immediately adjusted. Reading, Copper. Steel common, and Rock Island preferred were ¼ higher, while Chesapeake and Ohio and several of the other raliroads were ½ a point up. This served to disconcert the bears to such an extent that they completely lost their nerve, and during the first hour the market stood firm, with fractional gains along the line. There was, however, a slim attendance of brokers, business continued within narrow lines, only the few leaders being active. At 10 o'clock hardly half the list had opened at all, and there was probably a greater number of the members of the exchange talking politics in the lobbles than on the floor watching; the opening. When it had been exexchange talking politics in the lob-bles than on the floor watching, the

After 10 o'clock prices began to eaken some, due apparently io lack buying support, and many stocks at the greater part of the gains recorded at the opening. At noon the market was at about the level of last night's closing, very sluggish, and offering a prospect of further losses through the day. The declines were quite slow on the leaders and the market was sagging off purely from lack of business.

change took place in the condi-

the quotations. The volume of bustness stuck to the same narrow lines, and the stock exchange had the appearance of a semi-holiday.

The closing prices were firm, with fractional changes from the last quotations of yesterday.

Indifferent as to Securities or Prices.

"You couldn't sell dividends at 10 per cent off to this crowd," disgustingly remarked a local broker today after a rain attempt to dispose of fifty shares of one of the railways at the price of-ficially quoted on the board. The brokers Hang About Lobbies Talkclient to reduce the price to the quota-tion of resterday and now nobody

wanted it within a point of that price.

This indicates the indifference to securities or prices now prevailing in the local market. The recorded transactions today were 115 shares, the largest sale being 50 shares of Railway, preferred, at 79, a full point below the price of the early part of the week. Preferred shares sold to the number of 95, all at \$79 a share.

There are no orders to buy except in small lots at low prices, and that statement sums up the entire situation.

The Security Storage Company gave notice of a dividend of \$2 a share upon its stock, payable July 10, to shareholders of record June 20.

The Second National Bank has also given notice of a dividend of 31/2 per cent upon its stock, payable July 1, to holders of record June 28.

No charge took place in the conditions during the first hour and a half of the afternoon. Trading was, if possible, within narrower limits than during the morning, and prices hung around the level of last night with only small fractional changes from time to time. The market seems hung on a peg waiting for political developments at Denver before any revival of business.

The impression is gaining ground in Wall Street that Bryan will be forced turough the Denver convention much as Taft was at Chicago, and afterwards the campaign will be left to the politicians with only mild excitement as summer grows old and autumn commences. At present little advantage in the speculative way seems inaminent from the Democratic gathering. But Wall Street is in a waiting mood with no intention of getting excited one way or another.
